UFAL User simulation

The purpose of this document is to describe the principles and implementation of user simulations for spoken dialogue systems developed at UFAL, MFF UK, Czech Republic. As a prerequisite, the reader should be familiar with the definition of the UFAL Dialogue act scheme, UFAL Dialogue state update, and UFAL Dialogue policy as described in ufal-dialogue-acts.odt, ufal-dialogue-state-update.odt and ufal-dialogue-policy.odt.
